1 DEFINITIONS

The **wine industry** in South African context is much wider than signified by the ordinary meaning of the word “wine”. Brandy and its building blocks (wine for brandy and distilling wine) have always formed a significant part of South Africa’s wine industry. In recent years grape juice and grape juice concentrate for use in non-alcoholic beverages, and not just for the sweetening of wine, have also come to the fore. The South African wine industry thus encompasses wine (still, fortified and sparkling), wine for brandy, distilling wine, brandy and other spirits distilled from distilling wine, and grape juice and grape juice concentrate for use in wine and non-alcoholic products.

Unless otherwise indicated, the following definitions apply in this publication:

Wine includes all the products below.

Still wine is non-fortified and non-sparkling wine, including perlé wine which is wine carbonated to the extent that the pressure in the container in which it is sold is between 75 and 300 kPa. It also includes any grape juice or must and grape juice or must concentrate used in the sweetening of such still wine.

Fortified wine is non-sparkling wine which has been fortified with wine spirit. It includes the volume of wine spirit used in the fortification process.

Sparkling wine is wine carbonated (either by fermentation or by impregnation with carbon dioxide) to the extent that the pressure in the container in which it is sold is more than 300 kPa. It includes any grape juice or must and grape juice or must concentrate used in the sweetening of such sparkling wine.

Wine for brandy is wine specially prepared for double distillation in a pot still and then, as distillate, matured for a period of at least three years in oak casks with a capacity of not more than 340 litres.

Distilling wine is wine specially prepared for distillation to spirits intended for use in brandy or other spirits, for fortification of wine or for industrial purposes.

Grape juice concentrate and grape juice refers to unfermented, undiluted or concentrated juice from grapes destined for use in non-alcoholic products such as fruit juices.

A producer cellar is a winery where grapes are received and processed on behalf of a group of wine grape producers, its members, into wine grape products and the marketing thereof as packaged or bulk.

A private wine cellar is a winery belonging to an individual or group where grapes are received and processed into wine grape products and the marketing thereof as packaged or bulk.

6.5 CERTIFIED WINE

Wines of Origin are made under strict control, from the harvesting of the grapes to the final product, in order to comply with the requirements of the Wine of Origin Scheme with respect to origin, variety and vintage.

The certification seal on the bottle confirms that at the time of its assessment by the Wine and Spirit Board, the wine conformed to the prescribed standards and confirms claims with regard to origin, variety and vintage as indicated on the label.

Figures based on various industry sources and SALBA data

Notes: Still wine excludes the grape-based liquor and alcoholic fruit beverage component.

Beer is RSA only.

All other product categories are RSA & Southern Africa Customs Union countries (Botswana, Lesotho, Namibia and Swaziland).

Wine and Sparkling wine do not include bottled imported products. Bottled imported portion is small.

All other product categories include imported products.

Ready to drink (RTD) refers to both Alcoholic Fruit Beverages and Spirit Coolers.
